Latest News

Welcome to Murmuration!

We’re pleased to welcome **Murmuration** to the Network of Resources (NoR) as of June 2025.

Murmuration brings expertise in satellite-based environmental intelligence and contributes two new Data Products as a Service (DPaaS) to the NoR Portfolio:

Wildlife and Biodiversity DPaaS: Provides EU-wide biodiversity indicators including fauna, flora, vegetation health, and ecological connectivity to support conservation and monitoring.

Pollution and Urban Heat DPaaS: Delivers health-oriented indices on air pollution and urban heat, helping assess environmental stressors and health system resilience.

Living Planet Symposium 2025

It was incredible to meet and exchange with some of you at the **Living Planet Symposium** in Vienna. Under the theme “*From Observation to Climate Action and Sustainability for Earth,*” the event brought together the global Earth observation community.

We had the pleasure of connecting with many inspiring people, sharing our work and exploring exciting new collaborations.

Scroll down for a few snapshots from this memorable week!

Dialogues

New Dialogue: Terradue

Ever wondered how cloud platforms power Earth Observation services behind the scenes? In our latest Dialogue, **Terradue** shares how their cloud-native tools like *Ellip Studio* are transforming EO data processing for developers, researchers, and even non-specialist users.

Discover how user needs are shifting, what trends Terradue sees emerging, and how they’re enabling Open Science through FAIR-compliant cloud solutions.

In this discussion, explore how innovation meets infrastructure in the EO world.
